Health Requirements for New Students

PHYSICAL REQUIREMENT:

Students that are new to the district from out of state or out of the country have 30 days from the first day of school to submit a health exam. Students that transfer from a district located in Illinois may submit the physical examination form from that district if it was completed within one calendar year prior to the date of entry.

The diabetes screening on the form should be completed in order to be considered compliant. The only physical form that will be accepted is the State of Illinois Certificate of Child Health Examination. Parents are to complete the top section of the physical form.

IMMUNIZATION REQUIREMENT:

An up to date shot record is required.

DENTAL REQUIREMENT:

A dental exam is required for all students transferring from out of state. If a student is transferring from an Illinois school, proof of prior exam is sufficient if it is current as designated by state guidelines.

VISION REQUIREMENT:

An eye exam must be performed by a licensed optometrist. If student is transferring from an Illinois school, proof of prior exam is sufficient.

BIRTH CERTIFICATE:

A certified copy is **required**.

HEALTH INVENTORY:

The student health inventory provides emergency contact information and details of current medical needs.

Thank you,

Beth Youngs, BSN, RN

PROOF OF SCHOOL DENTAL EXAMINATION FORM

Illinois law (Child Health Examination Code, 77 Ill. Adm. Code 665) states all children in kindergarten and the second, sixth and ninth grades of any public, private or parochial school shall have a dental examination. The examination must have taken place within 18 months prior to May 15 of the school year. A licensed dentist must complete the examination, sign and date this Proof of School Dental Examination Form. If you are unable to get this required examination for your child, fill out a separate Dental Examination Waiver Form.

This important examination will let you know if there are any dental problems that need attention by a dentist. Children need good oral health to speak with confidence, express themselves, be healthy and ready to learn. Poor oral health has been related to lower school performance, poor social relationships, and less success later in life. For this reason, we thank you for making this contribution to the health and well-being of your child.

State of Illinois Eye Examination Report

Illinois law requires that proof of an eye examination by an optometrist or physician (such as an ophthalmologist) who provides eye examinations be submitted to the school no later than October 15 of the year the child is first enrolled or as required by the school for other children. The examination must be completed within one year prior to the first day of the school year the child enters the Illinois school system for the first time. The parent of any child who is unable to obtain an examination must submit a waiver form to the school.
